Project Name	IOT Based safety gadget for child safety monitoring and Notification

### Develop The Web Application Using Node-RED

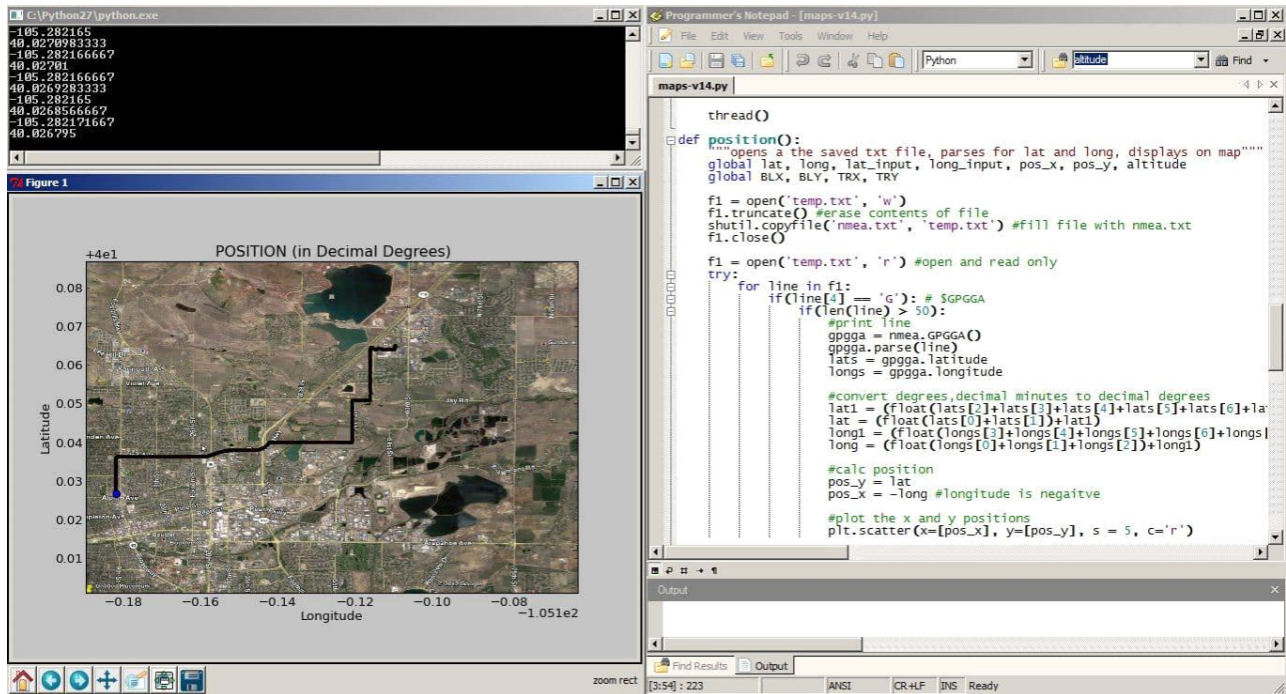

**Aim:** Develop the web application using Node-RED

**Steps Followed:**

- Opened a Node-RED project

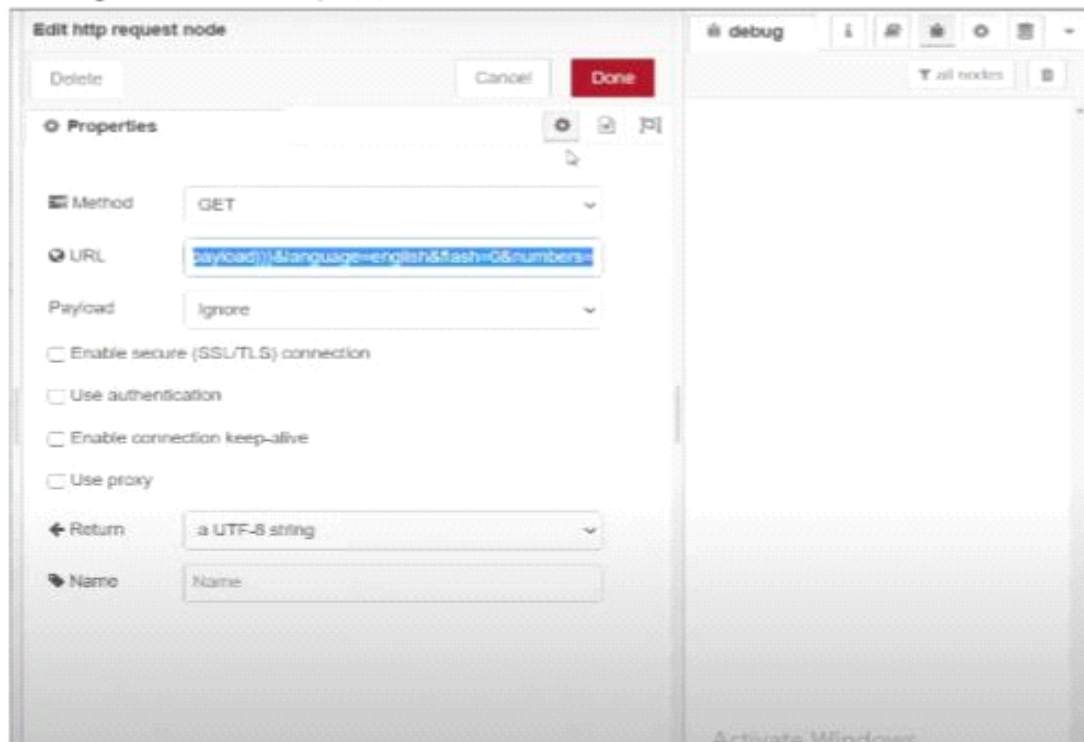

**Develop the web application using Node-Red**

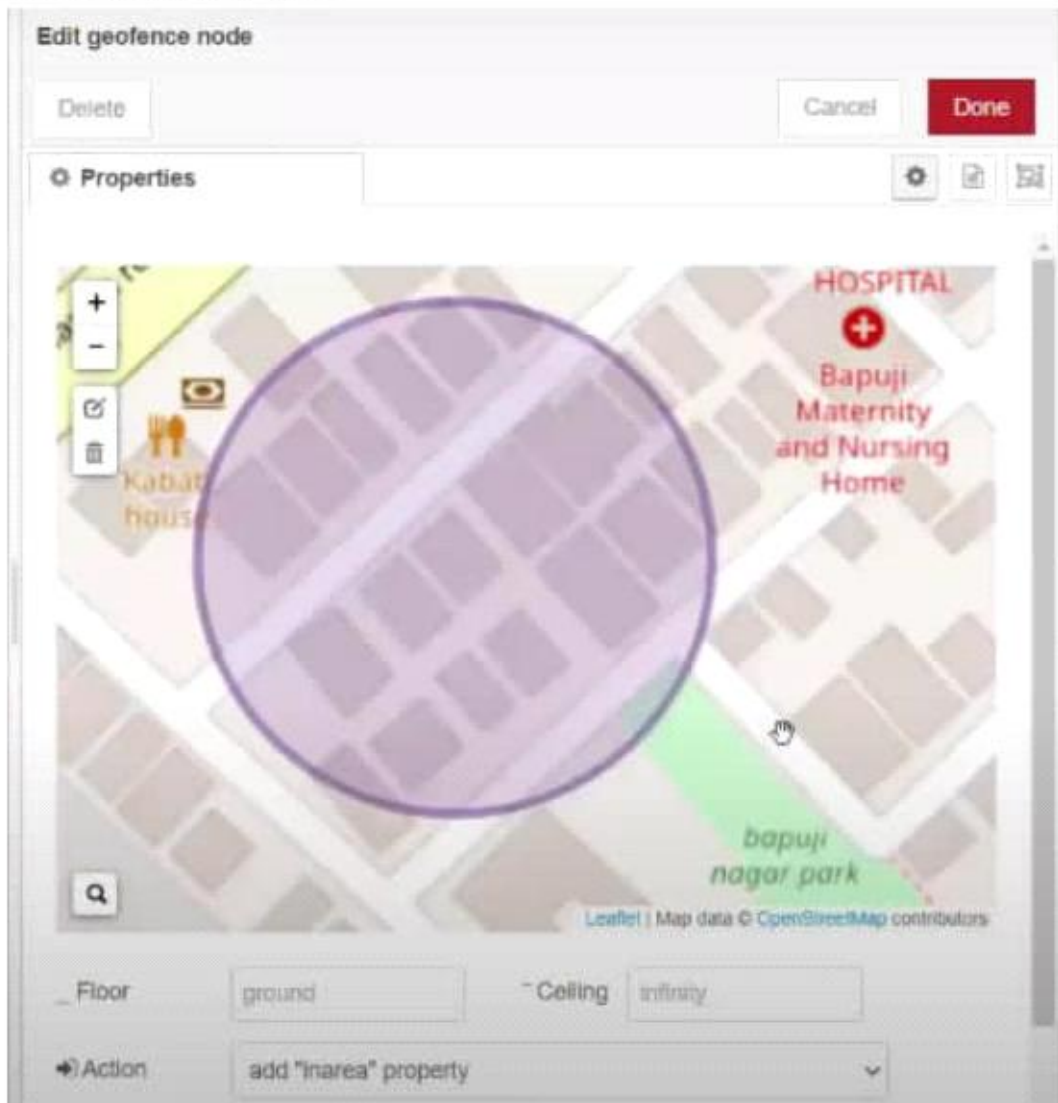

Added a python code to get a child location

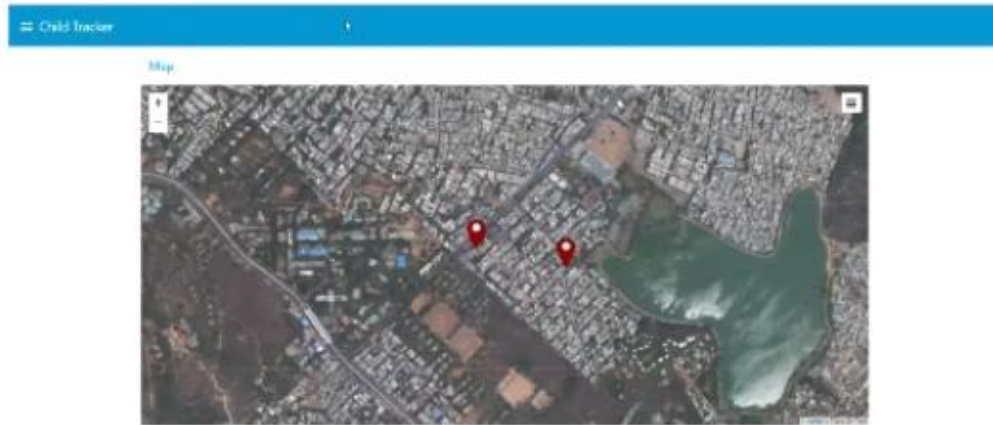

- Editing the HTTP Request URL

- Created the GeoFence

- After running the script, the web UI shows "Person is not in the particular area"

Result: Successfully developed the web application using Node-RED

**Result: Successfully developed the web application using  
NODE-RED**
